KEINE SCHUBLADEN – NUR LEIDENSCHAFT.

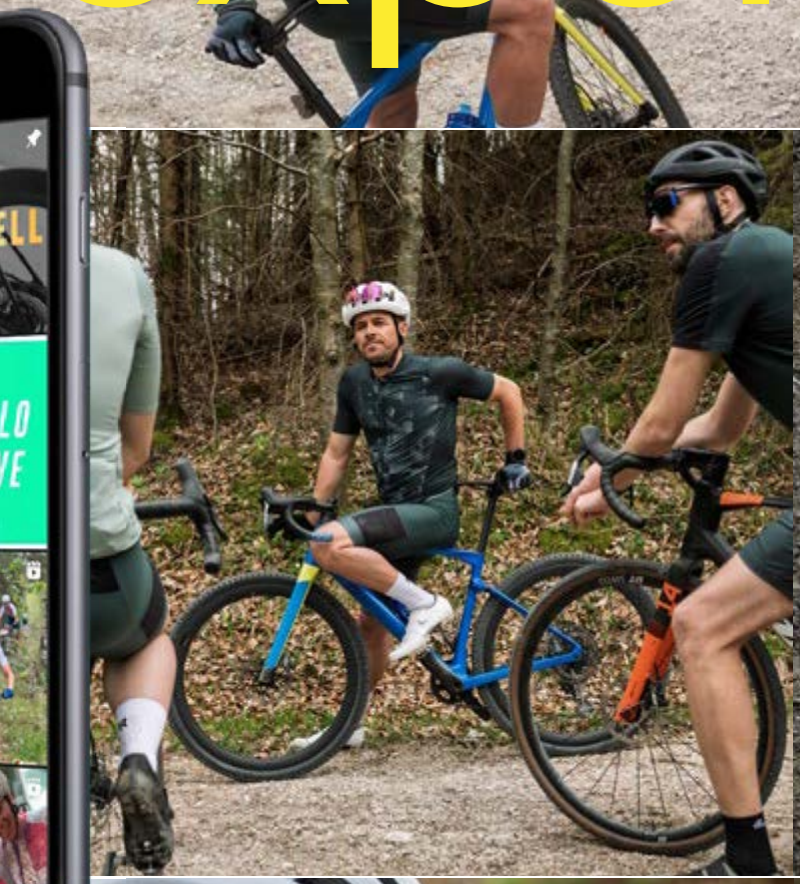

Vier Bike-Begeisterte, ein gemeinsamer Antrieb: die Liebe zum Radfahren. Claudia, Nina, Tomaz und Oliver vereinen Rennsport und Abenteuer – genau die Mischung, die wir gesucht haben.

Das Velo Kartell steht für echte Geschichten, für Leidenschaft, für Performance genauso wie für „dabei sein ist alles" und „einfach losfahren". Zusammen mit ihnen haben wir SKYS entwickelt: unsere neue Gravel-Kollektion, die so facettenreich ist wie ihre Erlebnisse auf dem Bike.

Typesetting and printing errors reserved.

experts

NO BOXES – JUST PASSION.

Four bikers, one common drive: the love of cycling. Claudia, Nina, Tomaz and Oliver combine racing and adventure – just the mix we were looking for.

The Velo Kartell stands for real stories, for passion, for performance as well as for „being there is everything" and „just getting started". Together with them we created SKYS: our new gravel collection that is as multifaceted as their experiences on the bike.

Between SKY and SAND

Kleines Packmaß
Small packing volume

Ob Asphalt, Schotter oder Matsch: Unsere neue Gravel-Kollektion SKYS ist modular aufgebaut, wetterfest und durchdacht bis ins kleinste Detail. Mit cleverem Stauraum, kompaktem Packmaß und absoluter Vielseitigkeit.
Für jedes Abenteuer zwischen Himmel und Erde – denn Graveln kennt keine Grenzen.

Whether asphalt, gravel or mud: our new SKYS gravel collection is modular, weatherproof and well thought out. With clever storage space, compact pack size and total versatility.
For any adventure between sky and sand – because gravel cycling knows no limits.

Viel Stauraum
Lots of storage space

RACE ELASTIC

MID FIT

A men´s mid fit bike jersey has an adapted, slightly more casual cut. Although the fabric is tight at the shoulders and chest, the body-hugging fit with a slightly wider waist (+ 8 cm) and longer front (+ 2 cm) allows more freedom of movement for sporty cycling tours.

Typesetting and printing errors reserved.

Men Women

Comfort Extreme

High performance seat pad for longer distances. Perfectly tuned to narrow saddles.

+ Various foams with different densities.
+ Ultra High Density (120 kg/m³) in the sit bones area.
+ Long-lasting dimensionally stable.
+ Perforated for perfect thermal regulation, lightweight.
+ Seamless anatomic bent shaping for a perfect fit and more stability.
+ Super soft, elastic high tech eco -fabric.
+ Bacteriostatic and skin-compatible.

Density: **120 kg/m³** Thickness: **14 mm**

Men Women

Comfort Gel Air

Compact, lightweight seat pad for cyclists with sporty ambitions.

+ Vibrations absorbing gel pads in the sit bones area.
+ High density foam.
+ Dimensionally stable and good torsion.
+ Continuously perforated for perfect thermal regulation.
+ Anatomically pre-shaped for sitting comfort and perfect stability.
+ Breathable, soft microfiber fabric.

Density: **90 kg/m³** Thickness: **16 mm**

Men Women

Comfort Elastic

Sporty all-round seat pad for a pleasant sitting comfort.

+ Long-lasting compact foam, very good cushioning features.
+ Different foam zones for ideal pressure distribution.
+ Elastic, flexible.
+ Pleasantly breathable, fast drying.
+ Ergonomically pre-shaped.
+ Cover fabric with a silk-soft touch.
+ Pleasant sitting comfort in an upright to compact sitting position.

Density: **80 kg/m³** Thickness: **12 mm**

Men Women

Comfort Basic

Base model for comfortable riding.

+ Compact foam with a good density.
+ Discreet with low volume.
+ Ergonomically pre-shaped.
+ Used for transtex® cycling undershorts.
+ Partially perforated for good thermal regulation.

Density: **60 kg/m³** Thickness: **6 mm**

OEKO TEX® STANDARD 100 29613 OETI www.oeko-tex.com

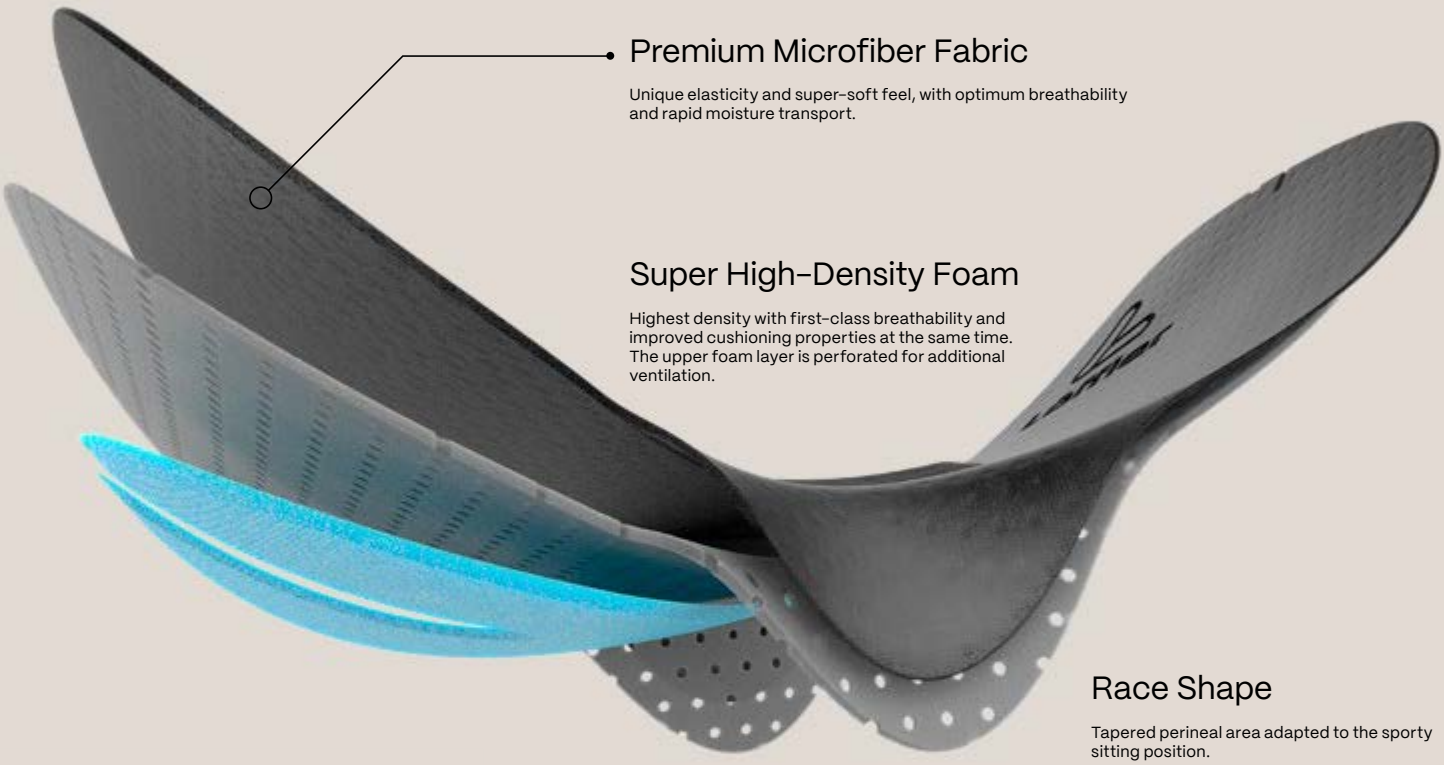

SQlab-XP/6 pro

Very thin seat pad developed primarily for a forward leaning, sporty to stretched riding position. Suitable for any distance.

+ Extremely compressed foam (360 kg/m³)
+ Outstanding, long-lasting cushioning
+ High breathability thanks to patented process
+ and additional perforation
+ Race-ergonomically pre-shaped
+ Super-soft, elastic microfiber fabric
+ Skin-friendly
+ Fast drying
+ Manufactured in Europe

Density: **360 kg/m³**

Thickness: **6 mm**

Premium Microfiber Fabric

Unique elasticity and super-soft feel, with optimum breathability and rapid moisture transport.

Super High-Density Foam

Highest density with first-class breathability and improved cushioning properties at the same time. The upper foam layer is perforated for additional ventilation.

Race Shape

Tapered perineal area adapted to the sporty sitting position.

SQlab SPORTS ERGONOMICS

SQlab is a German pioneer when it comes to ergonomic bicycle components that make the contact points between bicycle and cyclist as ergonomic and comfortable as possible.

The company's innovative approach to bicycle saddles in particular has made it famous worldwide. For some years now, SQlab has been working on seat pads for cycling shorts and has also been very successful on the market in this area.

High pressure absorption.

The SQlab-XP/6 pro seat pad is suitable for every sit bone distance. The slightly wider extension ensures that the sit bones rest firmly on the pad during the pedalling movement. The vertical force exerted on the bike saddle is significantly reduced.

So thin and yet cushioning?

In general, high-quality foams with a higher density offer better cushioning properties but lose their breathability. By breaking up the foam structures (a process patented by SQlab), the high breathability is restored. The perfect cushioning remains fully intact.

Regionally produced in Austria/ Europe

OEKO TEX®
MADE IN GREEN
CX57MREWED
OETI

Very light, thin merino sports underwear (129 g/m²) knitted in Ried im Innkreis from the finest merino wool fibres (15,5 Mikron).

Ideal for summer, as the breathable Merino Light absorbs a lot of sweat and wicks it away to the outside where it evaporates. The body is pleasantly air-conditioned.

Merino wool

Perfect even in summer.

Typesetting and printing errors reserved.

Cycling Undershorts

Women Men

03965 (W) | 02965 (M)

TRANSTEX® LIGHT CYCLING UNDERSHORTS

Comfortable basic model for active cyclists, designed for short to medium bike tours.

Close fit
Fast transtex® moisture transport
Fast drying
Very lightweight
Discreet seat pad
For a mainly upright sitting position

+ Wide elastic waist band
+ Extra short leg length
+ Elastic leg ends

6 mm Seat pad
Comfort Basic

Women Men

TENCEL™
CLY/PES/EL
+ 3D honeycomb structure
+ For sports and lifestyle
+ Good climate management
+ Fast drying
+ TENCEL™- industrially produced cellulose fibre (wood)
+ Exclusively knitted in Austria

Nearly 70% of the used fabrics are knitted at Löffler's in-house knitting factory in Ried im Innkreis, marked with

transtex®

transtex® functional fabrics are knitted exclusively in Ried im Innkreis, made of polypropylene and combined with e.g. cotton or Merino wool, depending on the type.

They transport moisture away from the skin faster than comparable other fabrics and they dry again very quickly.

The decisive factor is the unique transtex® knitting technology, which has been continuously perfected for more than 40 years.

MERINO WOOL

Merino wool is ideal for functional clothing:

+ It warms when it's cold – even when damp!
+ It cools through evaporation when it is warm.
+ It is very fine and soft, so it does not scratch the skin.
+ It does not develop unpleasant odours.
+ It does not become electrostatically charged.
+ It has a natural sun protection factor.

For ethical and animal welfare reasons, LÖFFLER only uses mulesing-free merino wool.

Tencel™
Feels so right

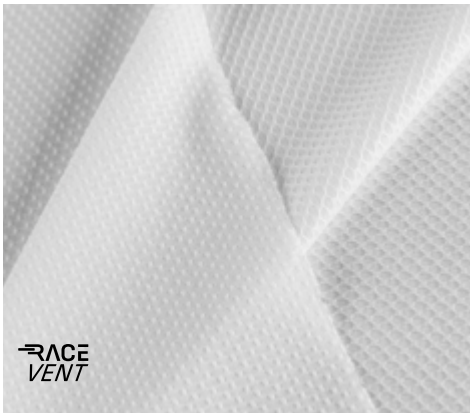

TENCEL™ is a lyocell fibre, an industrially produced cellulose fibre obtained from sustainably grown wood.

It uses around 20 times less water in the manufacturing process than conventional cotton.

TENCEL™ is a biodegradable fibre, gentle on the skin, allergy-friendly and odour-repellent. TENCEL™ has a thermo-regulating effect.

Convincing Sales Arguments

Löffler
Made for better

As an Austrian brand, LÖFFLER combines innovation, quality and responsibility. Communicate the strengths of the LÖFFLER brand – this will also benefit your sales success!

+ For more than 50 years, LÖFFLER has been developing sportswear for top athletes. All sportsmen and sportswomen benefit from the continuous innovative strength – also through feedback from top athletes.
+ LÖFFLER is an Austrian company with about 170 employees at the production site in Ried im Innkreis, Austria, and about 90 employees at the production site in Tryavna, Bulgaria.
+ LÖFFLER is committed to sustainable work, high social standards and value creation in the region, produces exclusively in Europe and thus offers a real alternative to mass-produced goods from the Far East.
+ Unique: Around 70% of the fabrics used to create high-quality LÖFFLER products come from the company's own knitting mill in Ried im Innkreis.
+ LÖFFLER sources 99% of its goods and services within Europe. Short transport routes, nature-friendly materials and value creation in the region: This is what LÖFFLER understands by sustainability.
+ All LÖFFLER products are OEKO-TEX® Standard 100 certified. LÖFFLER production has been awarded the OEKO-TEX® STeP certificate for sustainable textile production.
+ Natural materials such as TENCEL™, cotton or merino wool are an important part of the LÖFFLER product portfolio.
+ LÖFFLER products are continuously awarded as test winners in independent tests.
+ In the spirit of sustainability LÖFFLER offers a competent repair service.
+ LÖFFLER attaches great importance to the fact that the products can be used in a multisport way.
+ LÖFFLER discloses its supply chains with retraced

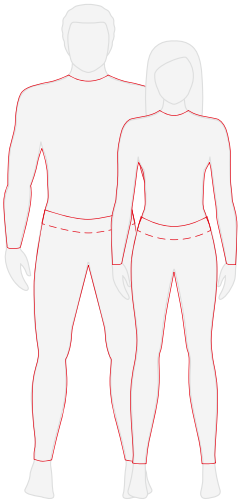

LÖFFLER assumes responsibility towards people, the region and the environment.

Tight fit

For pants and tops

Löffler

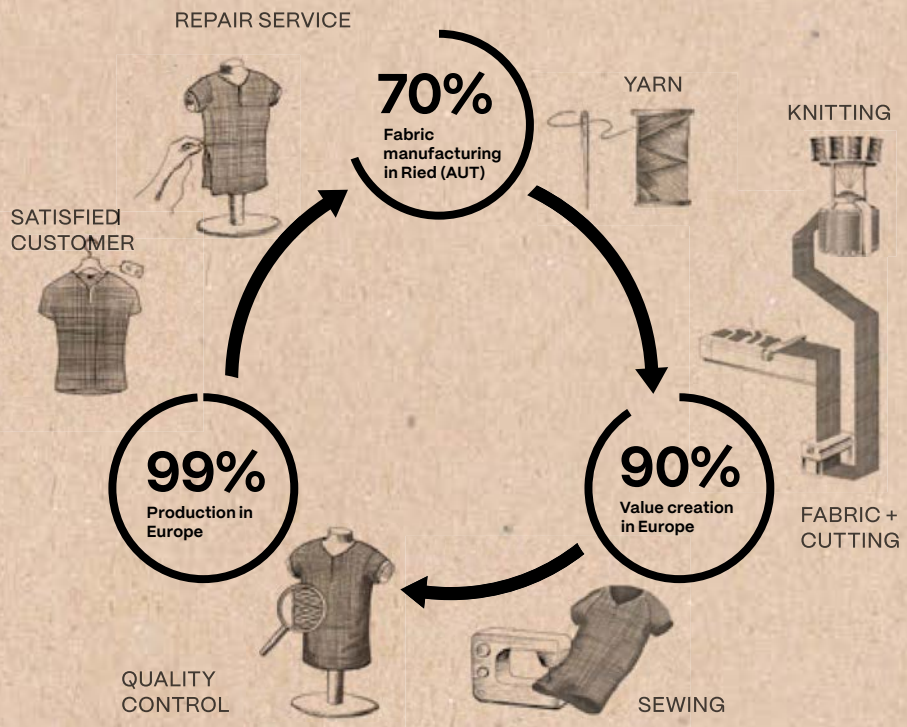

Responsibly manufactured in Austria / Europe

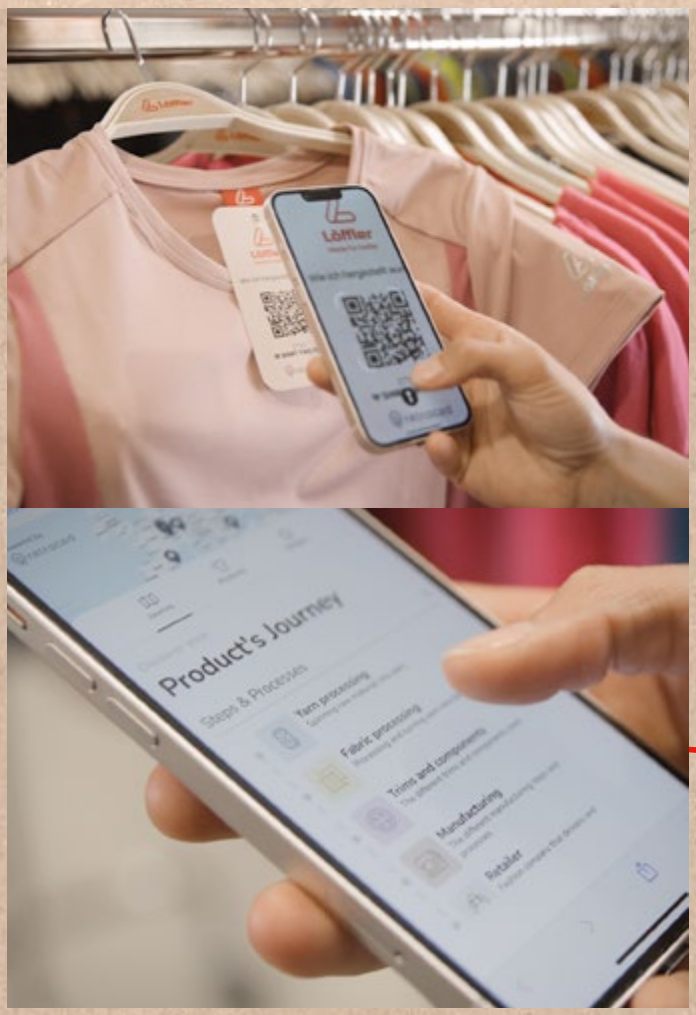

LÖFFLER is not only a brand, but also a producer, with a high vertical integration: We stand for responsible and sustainable production. Both in word, and especially in deed. Manufacturing steps such as product development and design, knitting, cutting, printing and assembly through sewing work to final inspection, storage and shipping are still carried out in Austria!

Around 70 % of all fabrics from which we produce high quality LÖFFLER products come from our own knitting factory in Ried im Innkreis, Austria.

More than 90 % of our spending remains within Europe.

Necessary accessories that are no longer available in Europe must be purchased globally. This concerns about 1 % of the products.

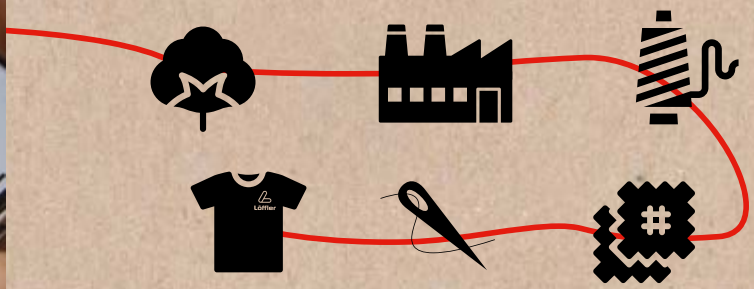

Transparency in our supply chains

We believe that more transparency leads to greater sustainability and credibility. Therefore, LÖFFLER has set the goal of making its supply chain as transparent as possible.

With the sustainability platform retraced.com and the Made in Green label, the supply chains of our textiles can be traced by scanning the QR code on the product tag.

You can read more about the social and ecological responsibility of LÖFFLER in the 2023 CSR-Report, available at:

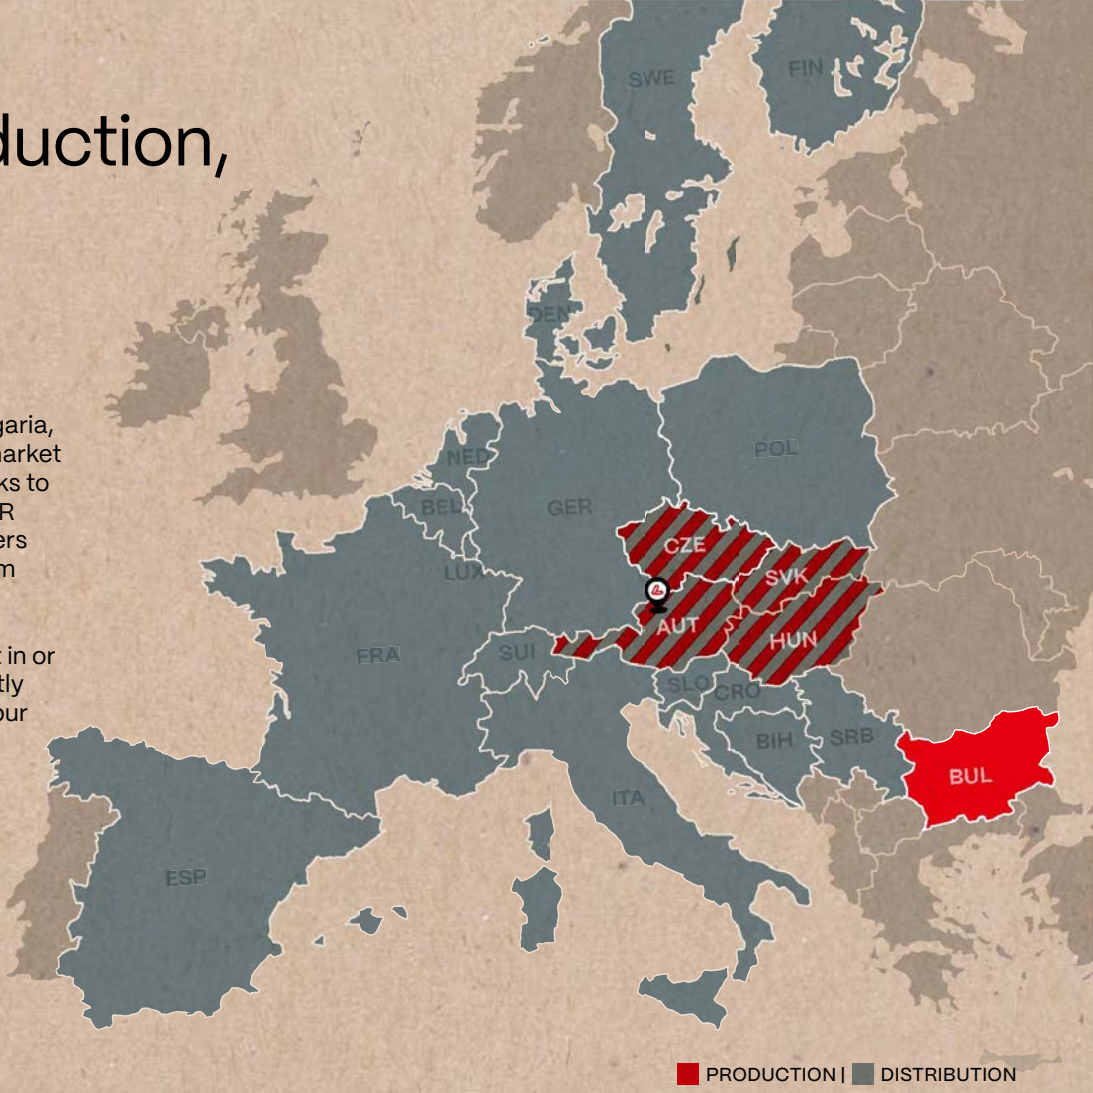

Regional production, sourcing and distribution

LÖFFLER produces in Austria and Bulgaria, strengthening the European internal market by sourcing goods and services. Thanks to its high manufacturing depth, LÖFFLER reduces dependence on global suppliers and consequently any risks arising from international crises.

Regional production and procurement in or close to our sales markets also indirectly strengthens the purchasing power of our customers and also reduces transport volumes.

99%
PRODUCTION IN EUROPE

52%
EXPORT SHARE

LÖFFLER HAS DECLARED CLIMATE PROTECTION TO BE A STRATEGIC CORPORATE GOAL.

Ecological and health safety

There are now a large number of quality seals for textiles. LÖFFLER relies on OEKO-TEX® certificates, which place strict requirements on both products and production.

OEKO-TEX® Standard 100

In our production we only use materials that are verifiably free of harmful substances, that are considered to be hazardous to the environment or health.

OEKO TEX® STANDARD 100 29613 OETI www.oeko-tex.com

OEKO-TEX® STeP

We permanently implement environmentally friendly production processes, highest occupational safety and fair working conditions for sustainable textile production.

OEKO TEX® STeP 13000149 OETI www.oeko-tex.com

OEKO-TEX® Made in Green

Only textiles certified to STANDARD 100 and produced in STeP certified production facilities receive this traceable seal of approval.

OEKO TEX® MADE IN GREEN CX57MREWED OETI www.oeko-tex.com

Repair instead of throwing it away.

LÖFFLER offers a professional repair service at the company headquarters in Ried im Innkreis (Austria). For us, sustainability is a lived part of the corporate philosophy, so it is only logical to repair high-quality clothing rather than throw it away.

This is how the LÖFFLER repair service works:

1. Please send the rejected product to LÖFFLER for inspection before providing a replacement or issuing a credit note.
2. Contact the LÖFFLER service department by phone or e-mail and please give us the following information:
   - Description of damage/reason for complaint
   - Ideally photos of the item, the laundry label and the damage including surrounding seams
   - Address and customer number
   - Date of sale (or new product)
3. In case of complaint and if it's possible (e.g. open seams) we repair the product. This takes 1-3 working days.
4. If the complaint is unjustified, we will prepare a repair suggestion with a cost estimate.
5. A professional, chargeable repair takes about 7 working days from order release.
6. When finished, the return delivery is made by post.

LÖFFLER products are high-quality, durable and easy to repair. There is hardly an item that we cannot repair.

Your contact person for repairs

Petra Steinböck
Tel. +43-7752-84421-196
petra.steinboeck@loeffler.at

48-Hours Complaints Processing

Within 24 hours we will answer your complaint and provide competent information. Normally the complaint will then be professionally repaired or renewed within another 24 hours.

Smooth order processing

Personal Contact Person

Apart from your personal sales representative at LÖFFLER there is also a competent internal sales team available to answer any questions!

Your order hotline: **+43 77 52 / 844 21 0**

24-Hours Online-Orderservice

The Retailer Online Shop is the easiest and fastest way for your orders – 24 hours a day, 7 days a week, informative and user friendly!

LÖFFLER has the most important basic articles always in stock for you and in addition offers an extensive stock program.

+ Enter **b2b.loeffler.at** in the address bar.
+ Log in with your **customer number** and your **password**. For multiple users, the e-mail address is stored in addition to the customer number. If you do not yet have login details, please write to b2b@loeffler.at
+ Search for the desired product using the article number or the extensive **filter function**.
  TIP: There is also the possibility to have only the sales prices (incl. tax) displayed. This allows you to find the right product together with your customer.
+ Place the product in your **shopping cart** and proceed to **checkout**.

PLEASE NOTE: The shopping cart is automatically emptied after approximately 3 hours!

Online Media-Database

In the B2B portal you have also access to the new LÖFFLER Media-Database or you just go to: www.loeffler.at/de/mdb.

1. There you will be asked to create your account. We will check your details and activate your account. This usually takes about one business day.
2. You will receive a confirmation email with a link where you can set your password.
3. You can then log in with your e-mail address and password and browse the media database.

In the Media-Database you can download current product photos, image photos, logos, graphics, videos, texts and much more.

24-Hours Delivery Service

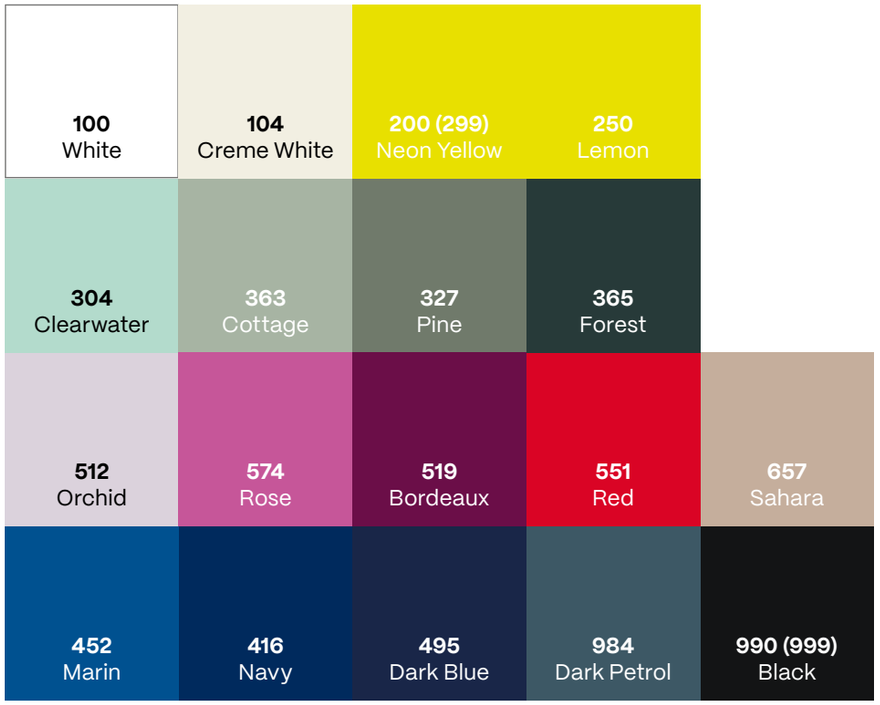

If your order arrives by **11:30 am**, we will deliver to Austria and Germany within the following business day.

Please note: For copyright reasons, photos may only be used to promote LÖFFLER products. Any other use must be agreed in advance with LÖFFLER.
