# Weiter

Weil Performance
kein Limit
kennt.

**WHEN OTHERS GIVE UP,
YOU KEEP MOVING ON.**

Whether there is snow or not. Whether it is raining or not. On skis or in running shoes. True athletes have to withstand any conditions.

Because sport is a lifestyle. An attitude. You choose it. You live for it.

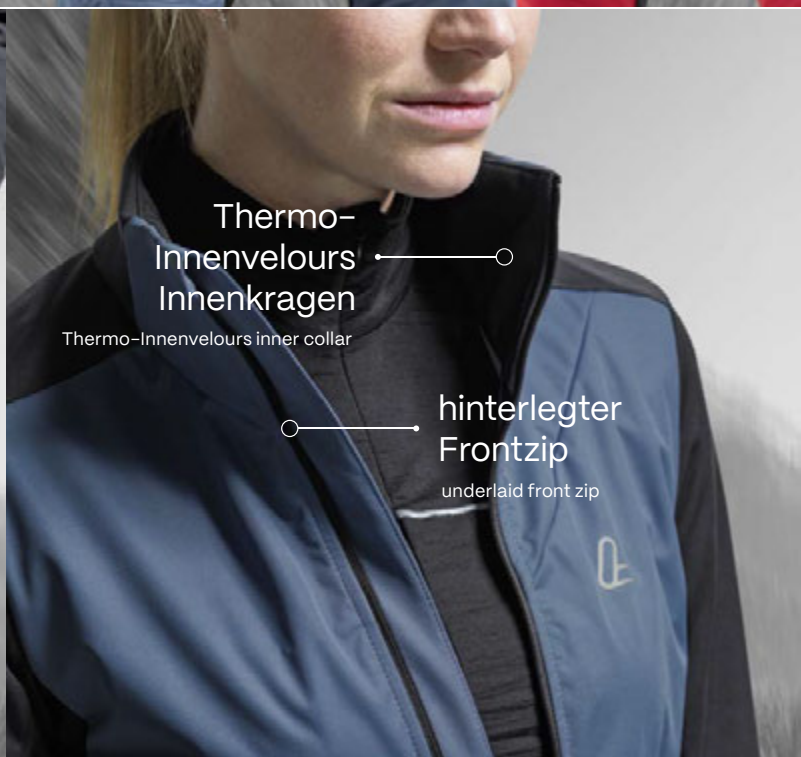

**You bring the mindset.
We bring the gear.**

**Keep running.
because performance knows no limits**

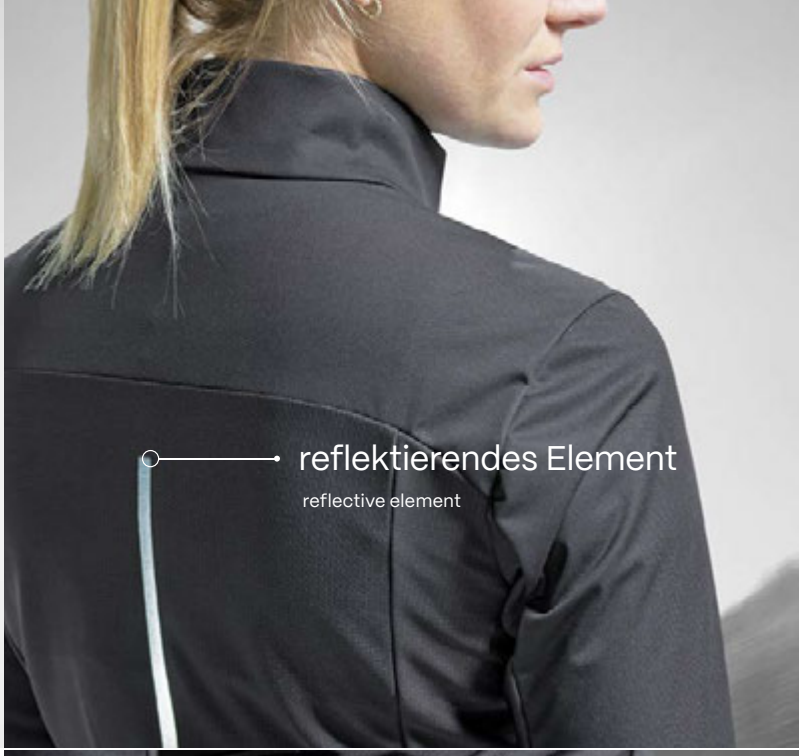

# laufen.

# Pro collection

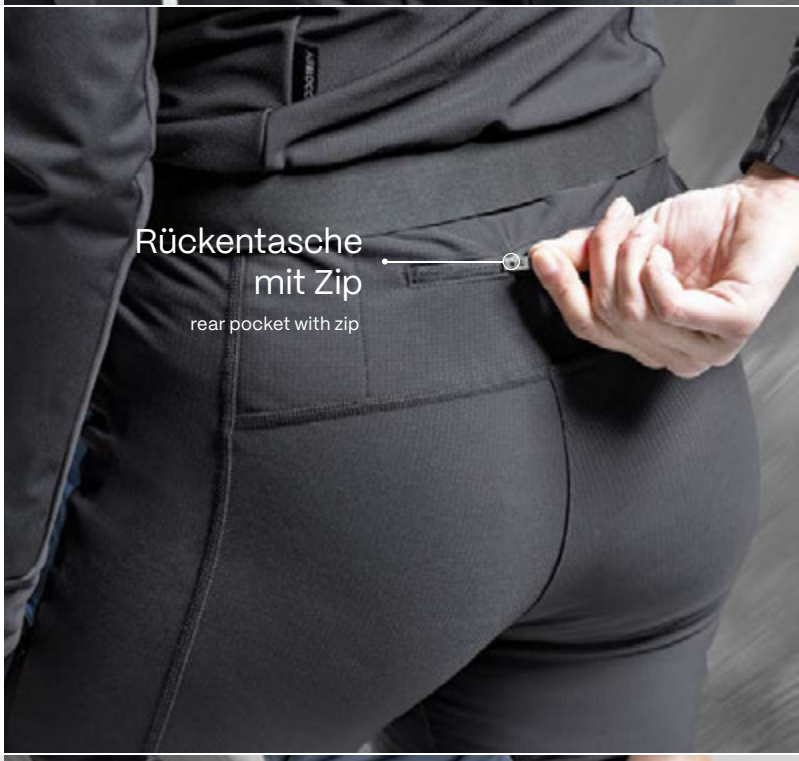

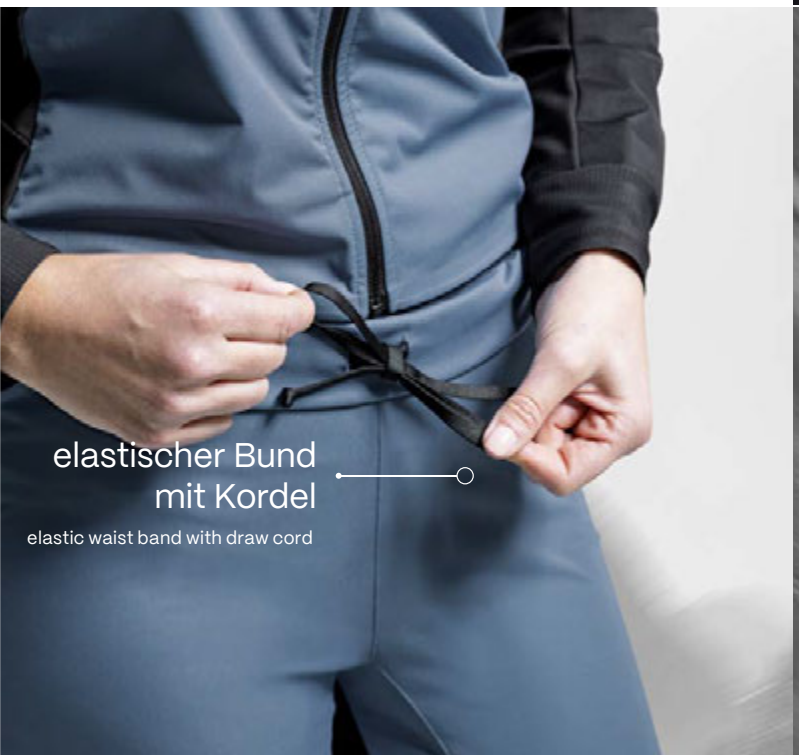

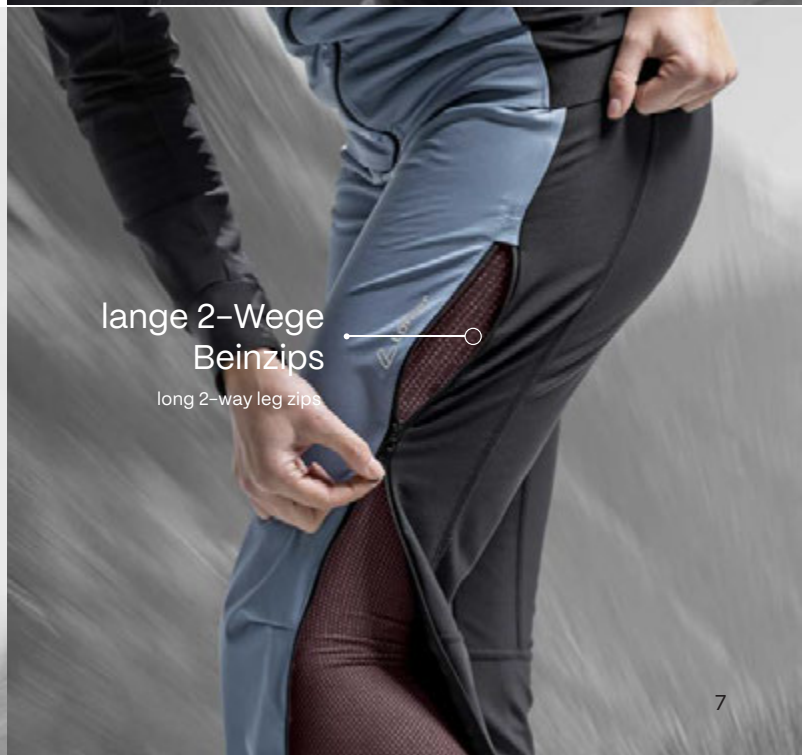

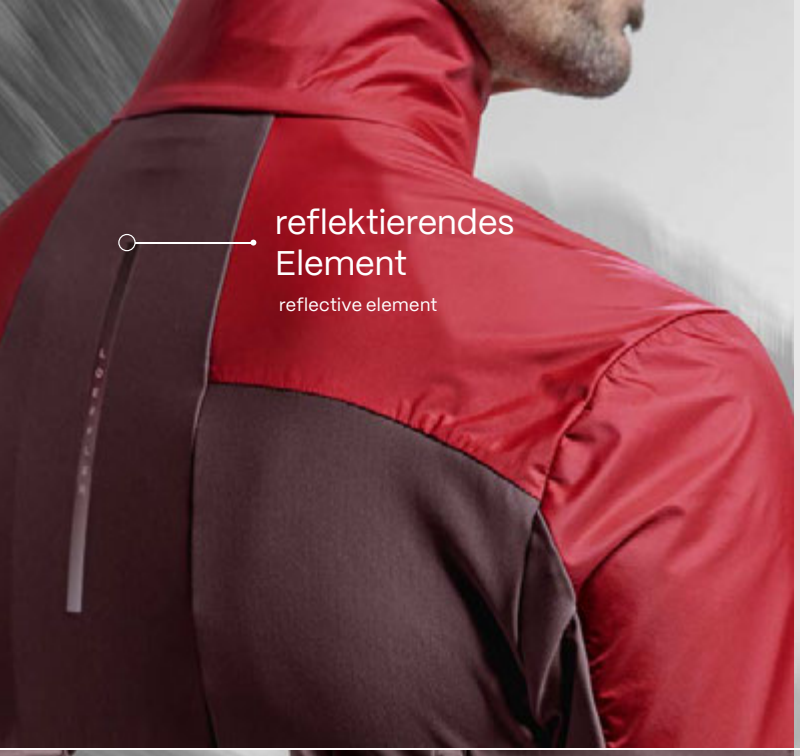

**Made for experts.**
The experience, ideas and tips of numerous active cross-country skiers are reflected in the cut, material selection, function and design of the Pro Collection. Important for everyone: the clothing must be as light as possible, reduced to the essentials and offer plenty of freedom of movement.

**PRO Airblocc Ultralight Outfit**
The hybrid jacket and pants combine windproof AIRBLOCC Ultralight softshell with highly elastic Thermo-Innenvelours. An ideal outfit for training when the weather is a little rougher or as warm-up clothing before the start of a race.

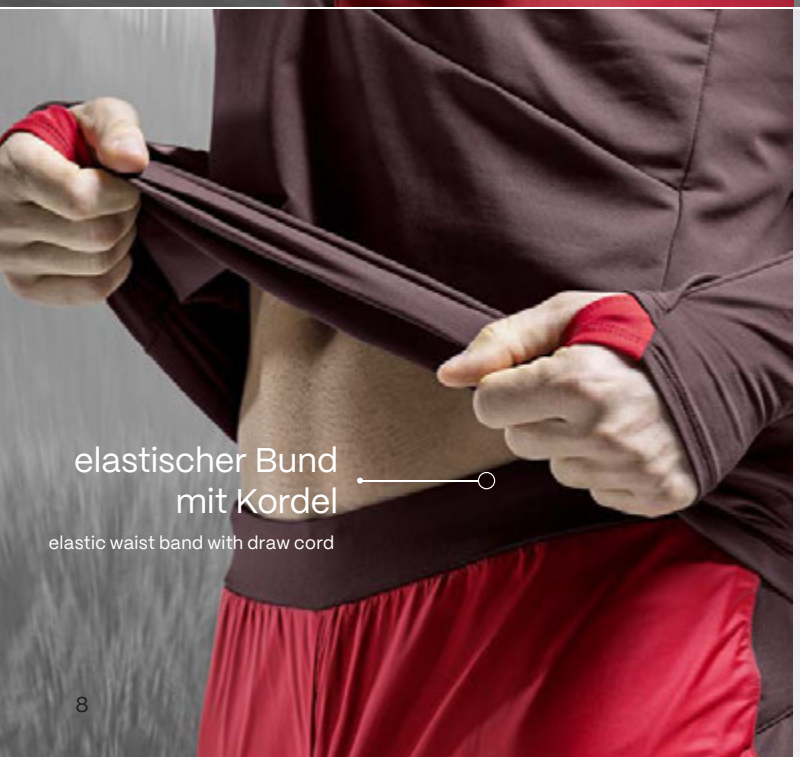

**PRO Breeze Outfit**
The lightweight, highly athletic combination for intensive training sessions. Race Elastic Warm in the jacket and DoubleDry in the pants are doubled up with windproof Windshell on the front and in strategically important positions.

# Pro
# colle

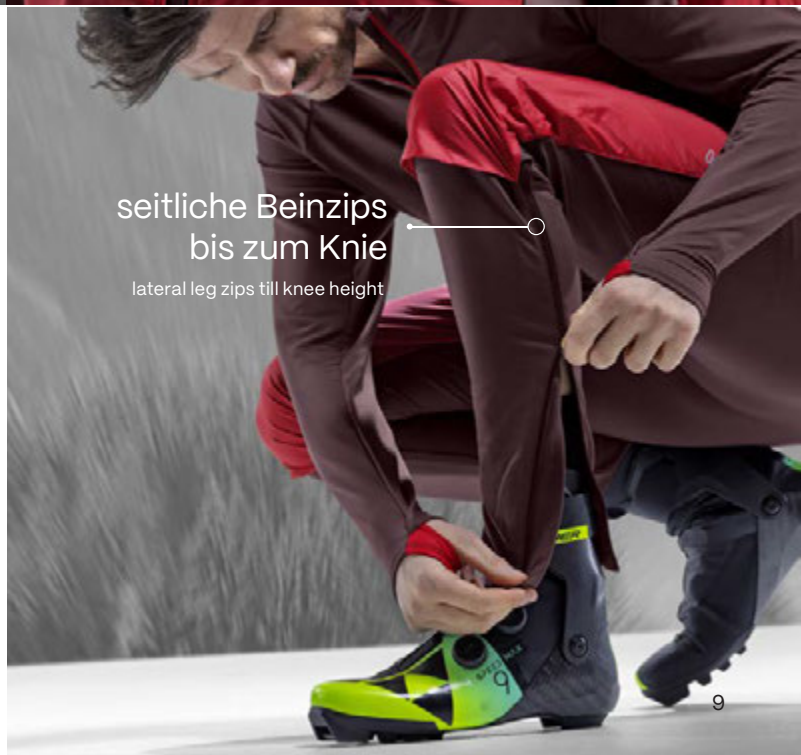

ction

LÖFFLER has been the official supplier to the Austrian Ski Association for decades. Professionals and young athletes alike trust in the quality of this Austrian brand.

Biathlon stars Lisa Hauser and Simon Eder wear the Austrian racing suit for the 2026 Winter Olympics in Milan/Cortina (ITA).

Ski Austria
Official Supplier

Running in the cold season requires several layers of clothing, from functional underwear to weatherproof jackets. Löffler has decades of expertise in cross-country skiing clothing and can offer this comprehensive layer concept perfectly. We focus on low weight and high freedom of movement without compromising on performance and functionality.

# Nordic Run

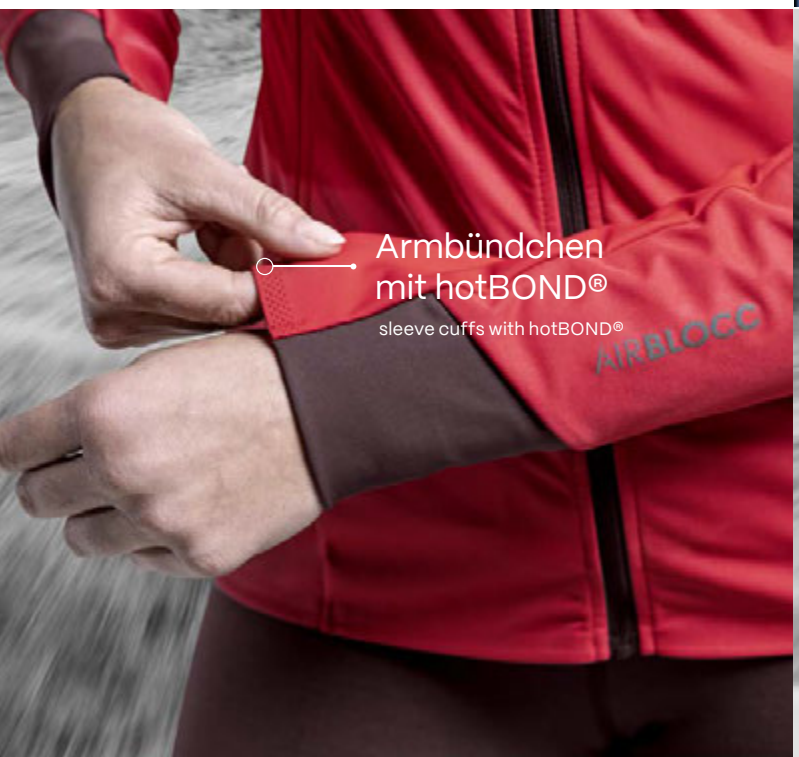

# Innovations for more kilometres.

**Race Motion – hoodies and shirts**
Lightweight, highly elastic fabric, breathable, warm thanks to fine spacer knit on the inside.

**transtex® Merino Fine – shirts**
transtex® function with ultra-fine merino wool (15.5 micron), lightweight, insulating, odour resistant.

**AIRBLOCC Ultralight – jackets**
Absolutely windproof 3-layer softshell, mono-material, very lightweight, elastic, made in Europa.

## SQlab-XP/6 pro

**Very thin seat pad developed primarily for a forward leaning, sporty to stretched riding position. Suitable for any distance.**

+ Extremely compressed foam (360 kg/m³)
+ Outstanding, long-lasting cushioning
+ High breathability thanks to patented process
+ and additional perforation
+ Race-ergonomically pre-shaped
+ Super-soft, elastic microfiber fabric
+ Skin-friendly
+ Fast drying
+ Manufactured in Europe

Density: **360 kg/m³** Thickness: **6 mm**

Men Women

## Comfort Extreme

**High performance seat pad for longer distances. Perfectly tuned to narrow saddles.**

+ Various foams with different densities.
+ Ultra High Density (120 kg/m³) in the sit bones area.
+ Long-lasting dimensionally stable.
+ Perforated for perfect thermal regulation, lightweight.
+ Seamless anatomic bent shaping for a perfect fit and more stability.
+ Super soft, elastic high tech eco -fabric.
+ Bacteriostatic and skin-compatible.

Density: **120 kg/m³** Thickness: **14 mm**

Men Women

## Comfort Gel Air

**Compact, lightweight seat pad for cyclists with sporty ambitions.**

+ Vibrations absorbing gel pads in the sit bones area.
+ High density foam.
+ Dimensionally stable and good torsion.
+ Continuously perforated for perfect thermal regulation.
+ Anatomically pre-shaped for sitting comfort and perfect stability.
+ Breathable, soft microfiber fabric.

Density: **90 kg/m³** Thickness: **16 mm**

Men Women

## Comfort Elastic

**Sporty all-round seat pad for a pleasant sitting comfort.**

+ Long-lasting compact foam, very good cushioning features.
+ Different foam zones for ideal pressure distribution.
+ Elastic, flexible.
+ Pleasantly breathable, fast drying.
+ Ergonomically pre-shaped.
+ Cover fabric with a silk-soft touch.
+ Pleasant sitting comfort in an upright to compact sitting position.

Density: **80 kg/m³** Thickness: **12 mm**

MERINO WOOL

OEKO TEX® MADE IN GREEN CX57MREWED OETI www.oeko-tex.com

**Merino Light 130** underwear is a very lightweight single knit made from the finest merino wool fibres (15.5 microns). It feels pleasantly soft to the skin and regulates body temperature well, cooling or warming as required. It can therefore be used in a wide range of situations, whether during sweaty activities or for quieter everyday wear.

Merino wool is naturally odourless and elastic. A small amount of elastane makes the underwear even more comfortable to wear and offers great freedom of movement.

**Merino Light 130** underwear is knitted exclusively in Ried im Innkreis and is certified Made in Green.

Regionally produced in Austria/ Europe

# The LÖFFLER Climate Profile

LÖFFLER'S climate profile makes it easy to choose the ideal transtex® underwear – depending on the outside temperature and the intensity of the sporting activity. The climate profile is only a recommendation and does not consider your individual body temperature sensitivity.

The grammage of underwear is an indicator of its thermal insulation and also affects its breathability.

MERINO WOOL

OEKO TEX® MADE IN GREEN CX57MREWED OETI www.oeko-tex.com

**Merino Light 130** underwear is a very lightweight single knit made from the finest merino wool fibres (15.5 microns). It feels pleasantly soft to the skin and regulates body temperature well, cooling or warming as required. It can therefore be used in a wide range of situations, whether during sweaty activities or for quieter everyday wear.

Merino wool is naturally odourless and elastic. A small amount of elastane makes the underwear even more comfortable to wear and offers great freedom of movement.

**Merino Light 130** underwear is knitted exclusively in Ried im Innkreis and is certified Made in Green.

Regionally produced in Austria/ Europe

# Made in Austria by LÖFFLER

transtex®

transtex® functional fabrics are knitted exclusively in Ried im Innkreis, made of polypropylene and combined with e.g. cotton or merino wool, depending on the type.

They transport moisture away from the skin faster than comparable other fabrics and they dry again very quickly.

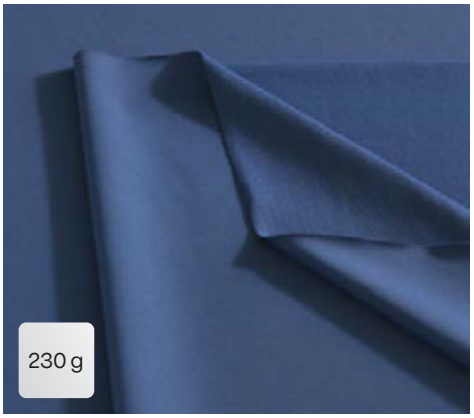

The decisive factor is the unique transtex® knitting technology, which has been continuously

## Breathability

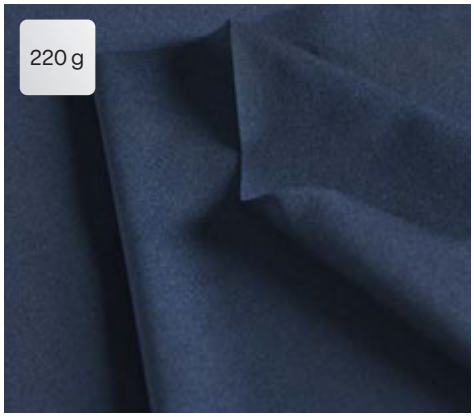

The MVTR value is measured. This is the amount of water vapour in grams that passes through one square metre of fabric in 24 hours. The higher the value, the better the breathability.

+ **not breathable**
  < 3.000 g/m²/24h

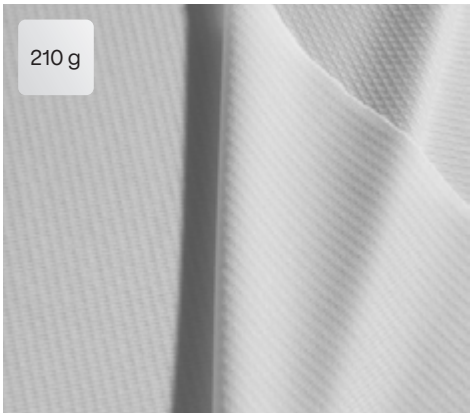

+ **breathable**
  from 3.000 g/m²/24h

+ **very breathable**
  from 10.000 g/m²/24h

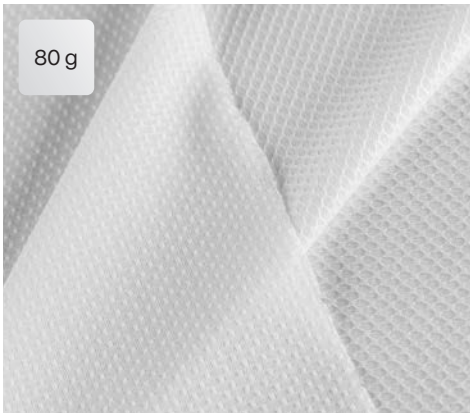

+ **extremely breathable**
  > 15.000 g/m²/24h

**ELASTIC**
**PA/EL**
+ Multi-elastic for a perfect fit
+ For highly athletic, anaerobic activities
+ Durable
+ Fast drying
+ Exclusively knitted in Austria

# Convincing Sales Arguments

Löffler
Made for better

**As an Austrian brand, LÖFFLER combines innovation, quality and responsibility. Communicate the strengths of the LÖFFLER brand – this will also benefit your sales success!**

+ For more than 50 years, LÖFFLER has been developing sportswear for top athletes. All sportsmen and sportswomen benefit from the continuous innovative strength – also through feedback from top athletes.
+ LÖFFLER is an Austrian company with about 170 employees at the production site in Ried im Innkreis, Austria, and about 90 employees at the production site in Tryavna, Bulgaria.
+ LÖFFLER is committed to sustainable work, high social standards and value creation in the region, produces exclusively in Europe and thus offers a real alternative to mass-produced goods from the Far East.
+ Unique: Around 70% of the fabrics used to create high-quality LÖFFLER products come from the company's own knitting mill in Ried im Innkreis.
+ LÖFFLER sources 99% of its goods and services within Europe. Short transport routes, nature-friendly materials and value creation in the region: This is what LÖFFLER understands by sustainability.
+ All LÖFFLER products are OEKO-TEX® Standard 100 certified. LÖFFLER production has been awarded the OEKO-TEX® STeP certificate for sustainable textile production.
+ Natural materials such as TENCEL™, cotton or merino wool are an important part of the LÖFFLER product portfolio.
+ LÖFFLER products are continuously awarded as test winners in independent tests.
+ In the spirit of sustainability LÖFFLER offers a competent repair service.
+ LÖFFLER attaches great importance to the fact that the products can be used in a multisport way.
+ LÖFFLER discloses its supply chains with retraced

Löffler

# Responsibly manufactured in Austria / Europe

LÖFFLER is not only a brand, but also a producer, with a high vertical integration: We stand for responsible and sustainable production. Both in word, and especially in deed. Manufacturing steps such as product development and design, knitting, cutting, printing and assembly through sewing work to final inspection, storage and shipping are still carried out in Austria!

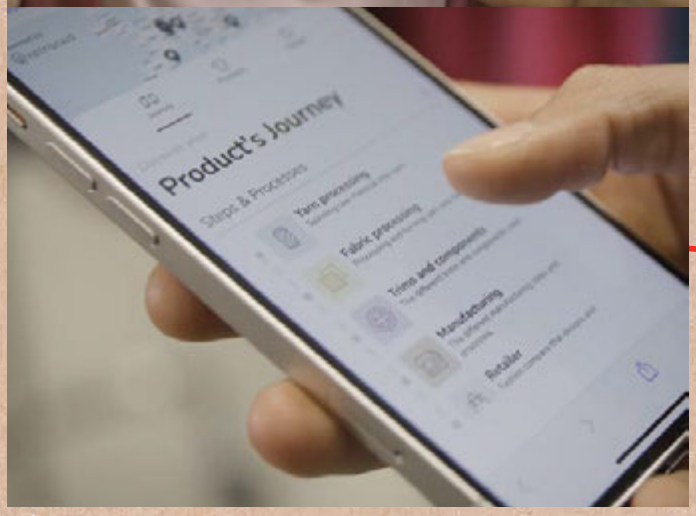

Around 70 % of all fabrics from which we produce high quality LÖFFLER products come from our own knitting factory in Ried im Innkreis, Austria.

More than 90 % of our spending remains within Europe.

Necessary accessories that are no longer available in Europe must be purchased globally. This concerns about 1 % of the products.

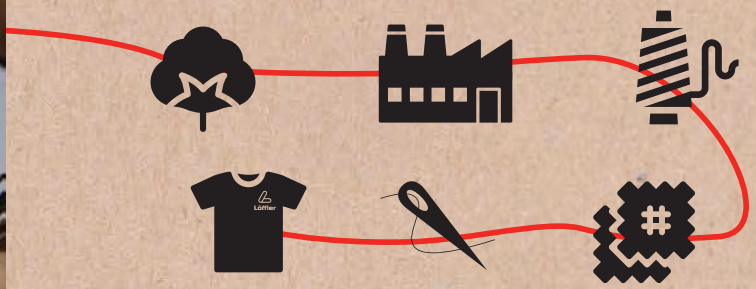

# Transparency in our supply chains

We believe that more transparency leads to greater sustainability and credibility. Therefore, LÖFFLER has set the goal of making its supply chain as transparent as possible.

With the sustainability platform retraced.com and the Made in Green label, the supply chains of our textiles can be traced by scanning the QR code on the product tag.

You can read more about the social and ecological responsibility of LÖFFLER in the 2023 CSR-Report, available at:

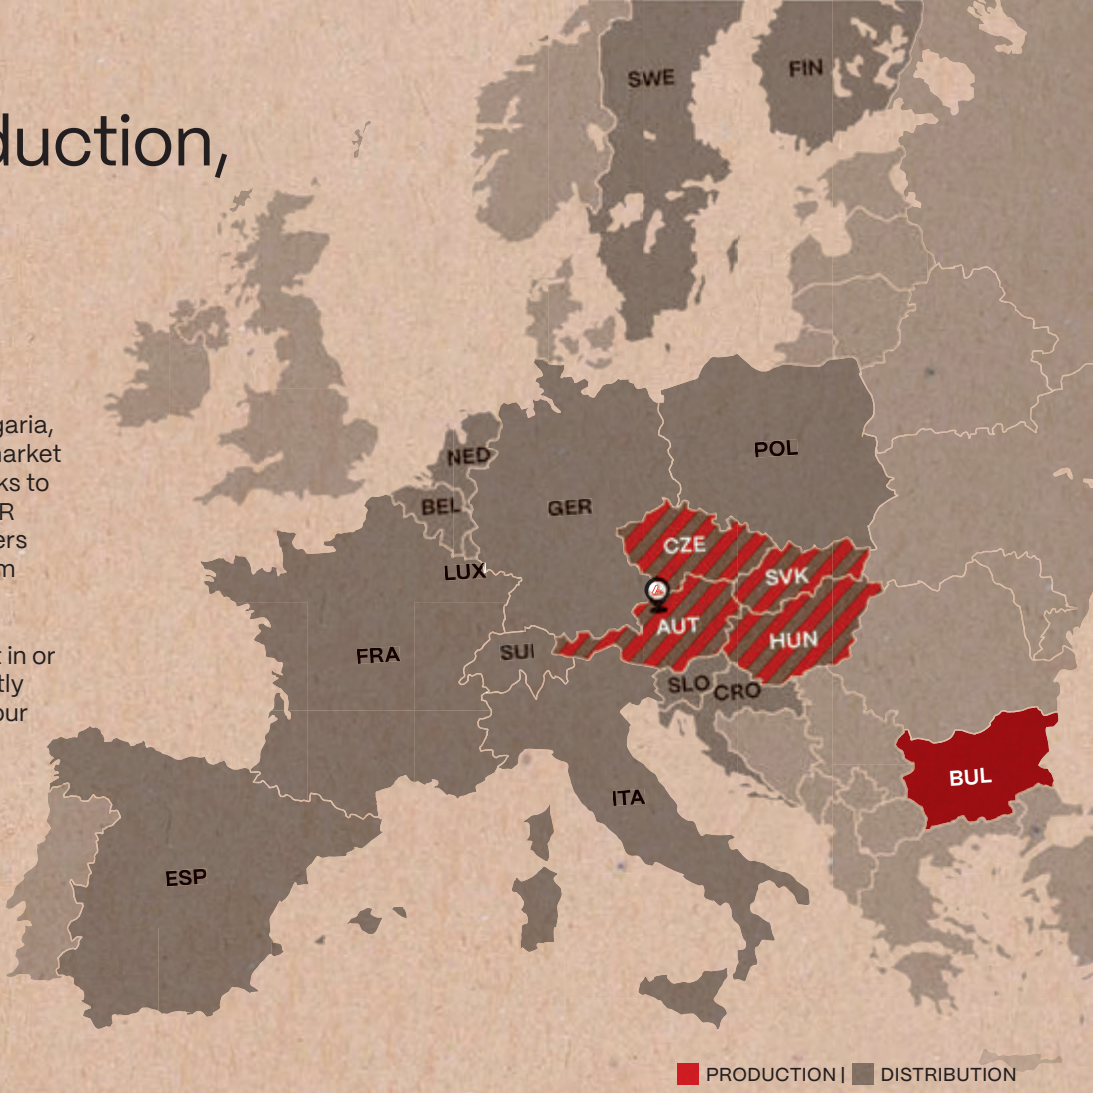

# Regional production, sourcing and distribution

LÖFFLER produces in Austria and Bulgaria, strengthening the European internal market by sourcing goods and services. Thanks to its high manufacturing depth, LÖFFLER reduces dependence on global suppliers and consequently any risks arising from international crises.

Regional production and procurement in or close to our sales markets also indirectly strengthens the purchasing power of our customers and also reduces transport volumes.

**99%**
**PRODUCTION IN EUROPE**

**52%**
**EXPORT SHARE**

LÖFFLER HAS DECLARED CLIMATE PROTECTION TO BE A STRATEGIC CORPORATE GOAL.

# Ecological and health safety

There are now a large number of quality seals for textiles. LÖFFLER relies on OEKO-TEX® certificates, which place strict requirements on both products and production.

## OEKO-TEX® Standard 100

In our production we only use materials that are verifiably free of harmful substances, that are considered to be hazardous to the environment or health.

OEKO TEX® STANDARD 100 29613 OETI www.oeko-tex.com

## OEKO-TEX® STeP

We permanently implement environmentally friendly production processes, highest occupational safety and fair working conditions for sustainable textile production.

OEKO TEX® STeP 13000149 OETI www.oeko-tex.com

## OEKO-TEX® Made in Green

Only textiles certified to STANDARD 100 and produced in STeP certified production facilities receive this traceable seal of approval.

OEKO TEX® MADE IN GREEN CX57MREWED OETI www.oeko-tex.com

# Repair instead of throwing it away.

LÖFFLER offers a professional repair service at the company headquarters in Ried im Innkreis (Austria). For us, sustainability is a lived part of the corporate philosophy, so it is only logical to repair high-quality clothing rather than throw it away.

## This is how the LÖFFLER repair service works:

1. Please send the rejected product to LÖFFLER for inspection before providing a replacement or issuing a credit note.
2. Contact the LÖFFLER service department by phone or e-mail and please give us the following information:
   - Description of damage/reason for complaint
   - Ideally photos of the item, the laundry label and the damage including surrounding seams
   - Address and customer number
   - Date of sale (or new product)
3. In case of complaint and if it's possible (e.g. open seams) we repair the product. This takes 1-3 working days.
4. If the complaint is unjustified, we will prepare a repair suggestion with a cost estimate.
5. A professional, chargeable repair takes about 7 working days from order release.
6. When finished, the return delivery is made by post.

LÖFFLER products are high-quality, durable and easy to repair. There is hardly an item that we cannot repair.

## Your contact person for repairs

**Petra Steinböck**
Tel. +43-7752-84421-196
petra.steinboeck@loeffler.at

## 48-Hours Complaints Processing

Within 24 hours we will answer your complaint and provide competent information. Normally the complaint will then be professionally repaired or renewed within another 24 hours.

## Shipping address

Löffler GmbH
attn. Petra Steinböck

Südtiroler Straße 41
4910 Ried im Innkreis

Austria

# Smooth order processing

## Personal Contact Person

Apart from your personal sales representative at LÖFFLER there is also a competent internal sales team available to answer any questions!

**Your order hotline:** **+43 77 52 / 844 21 0**

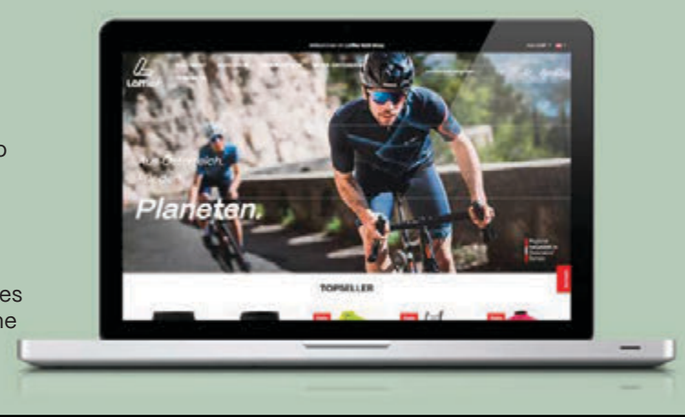

## 24-Hours Online-Orderservice

The Retailer Online Shop is the easiest and fastest way for your orders – 24 hours a day, 7 days a week, informative and user friendly!

LÖFFLER has the most important basic articles always in stock for you and in addition offers an extensive stock program.

+ Enter **b2b.loeffler.at** in the address bar.
+ Log in with your **customer number** and your **password**. For multiple users, the e-mail address is stored in addition to the customer number. If you do not yet have login details, please write to b2b@loeffler.at
+ Search for the desired product using the article number or the extensive **filter function**.
TIP: There is also the possibility to have only the sales prices (incl. tax) displayed. This allows you to find the right product together with your customer.
+ Place the product in your **shopping cart** and proceed to **checkout**.

PLEASE NOTE: The shopping cart is automatically emptied after approximately 3 hours!

## Online Media-Database

In the B2B portal you have also access to the new LÖFFLER Media-Database or you just go to: www.loeffler.at/de/mdb.

1. There you will be asked to create your account. We will check your details and activate your account. This usually takes about one business day.
2. You will receive a confirmation email with a link where you can set your password.
3. You can then log in with your e-mail address and password and browse the media database.

In the Media-Database you can download current product photos, image photos, logos, graphics, videos, texts and much more.

## 24-Hours Delivery Service

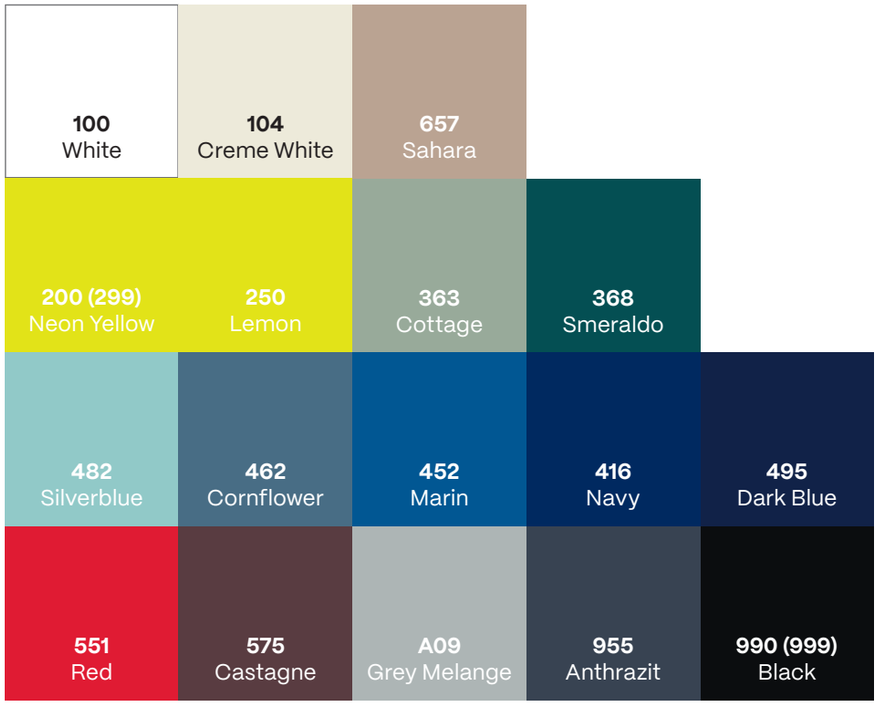

If your order arrives by **11:30 am**, we will deliver to Austria and Germany within the following business day.

Please note: For copyright reasons, photos may only be used to promote LÖFFLER products. Any other use must be agreed in advance with LÖFFLER.
